EDUCATION

Orchid International College

B.Sc Computer Science And Information Technology

January 2026

Current GPA: 3.57/4.0

Kalika Manavgyan Higher Secondary School

Science (Mathematics)

December 2021

GPA: 3.29/4.0

COURSEWORK

Courses: Object-Oriented Programming, Data Structures & Algorithms, Database Management System, Artificial Intelligence, Digital Logic, Physics, Probability & Statistics.

SKILLS

Languages: C/C++, Python, JavaScript, HTML/CSS, PHP

Libraries: React, Node, Express

Design & Animations: Figma, Canva

Databases: Oracle, MySQL, MongoDB

Tools: Git/GitHub, VS Code, Postman

PROJECTS

Eventora – Event Booking Platform | *MongoDB, Express.js, React.js, Node.js, JWT, Nodemailer*

- Built a full-stack MERN event booking platform with secure authentication and OTP verification.
- Learnt to implement JWT authentication, role-based access control, and REST APIs.
- Developed user and admin dashboards for event management and booking approval.
- Applied MongoDB to store and manage events, bookings, and user data efficiently.

Youtube Backend | *Node.js, Express.js, MongoDB*

- Learnt to build a backend REST API using Node.js and Express.js .
- Gained experience in designing schemas and models using Mongoose for users, products, and orders.
- Explored the use of middlewares for authentication, and file uploads using Multer.
- Practiced implementing JWT-based authentication .

Ecommerce | *Javascript, HTML/CSS, React JS*

- Learnt to design and develop a responsive e-commerce frontend using React.js.
- Gained experience implementing product categorization using `filter()` and `map()` functions for efficient data handling.
- Explored dynamic routing concepts using Routes, BrowserRouter, and RouterProvider to enable seamless navigation.
- Practiced user authentication and authorization workflows using Firebase.

TRAININGS/ CERTIFICATES

Github & Linux

Orchid Int'l College

Mar 2022 – 30 hrs

Front End Web Development With React JS

Broadway Infosys

Jun 2022 – 90hrs
